Professional Summary

Senior Software Engineer who has led the development of enterprise SaaS platforms using **C#, React, .NET Core, Angular, and Azure**. Strong focus on **scalable REST APIs, microservice architectures, and event-driven systems** for high-performance applications. Proven track record of improving system performance, implementing secure authentication mechanisms, and delivering production-ready features through CI/CD pipelines in Agile environments. Experienced in planning and executing shipping of the products as well as maintaining engineering standards. Currently expanding into AI-driven systems including RAG and agentic architecture.

Technical Skills

Frontend: Angular, JavaScript, TypeScript, React

Backend: C#, .NET Core, Web API, LINQ, Dapper, Entity Framework

Database: SQL Server, Evolve DB, PostgreSQL

Cloud & DevOps: Azure DevOps, Azure Portal (AZ-900 certified), CI/CD Pipelines, Kiuwan, Railway

Architecture: REST APIs, Event-Driven Architecture, SSO, MFA, CQRS, Design Patterns, System Design

Tools: Postman, Swagger, GitHub, GitHub Copilot, Docker, Azure function, Service bus and Event Hub

Artificial Intelligence: MCP, RAG, Embeddings, Langchain ecosystem (Langgraph, Langsmith)

Professional Experience

Senior Software Consultant – Full Stack (SIMS Nextgen – Enterprise SaaS platform for schools)

Parentpay India Ltd. | July 2025 – present

- C#.Net | React | SQL Server | Azure Portal | Kiuwan | Evolve DB
- Led sprint planning, completion of sprint goals, retrospectives and scheduling releases
- Contributed to system architecture and repository setup for the NextGen platform for exams module
- Led development and architecture of the Data Extraction (DEX) pipeline migrating legacy product data
- Setup the path for data sync writeback activity, from new product back to the legacy product
- Performance improvement (20%) for critical features with query optimization
- Worked on DB schema design and designed API structure
- Designed important scenarios with constraints in key features, to incorporate end user feedback
- Planned the architecture and testing plan of EDI, read and write Nuget library for internal usage

Architect, developer and product owner – Numerinus: Monetized Finance Library (NuGet + SaaS Licensing)

Own platform | March 2026 – present

- URL: <https://numerinus.dev/>

- Stack: React.js, Tanstack, .Net Core (minimum APIs), Postgres, Entity Framework
- Designed and developed a production-grade high performance financial computation library for .NET
- Includes real-world financial formulas with tiered pricing model and user dashboard
- Third-party payment gateway integration, with checkout sessions and webhooks
- Built a full licensing, validation and telemetry platform (API + SDK) making **Numerinus** an ecosystem
- Built a thorough admin dashboard for analytics, user & license management and transaction monitoring
- Implemented an RAG powered AI Agent **FINO**, for helping the users with documentation & account info

Senior Software Developer – SpecLink Cloud (Enterprise SaaS Platform)

Winjit Technologies (RIB Software) | Apr 2022 – July 2025

- Stack: Angular, .NET Core, SQL Server, Azure DevOps, Serilog, SignalR, IaaS
- Led SDLC activities for SpecLink Cloud using Agile methodology.
- Improved **Link Engine performance by 30%** by introducing a dedicated microservice and multithreading
- Implemented security features including **role-based access control, MFA, and SSO**
- Participated in **architecture discussions, code reviews, sprint planning, and CI/CD releases**

Full Stack Developer – Terrace Finance Corporation (Enterprise SaaS multi lender Platform)

MASDAG Technologies | May 2021 – Apr 2022

- Developed web apps for Terrace Finance 1.0 & 2.0 using Angular + .NET Core
- Worked on microservice-based architecture with full stack development
- QA/UAT deployments, user story grooming, SCRUM participation

Full Stack Developer

GCDIS | Mar 2018 – Apr 2021

- Built internal media platform from scratch using Angular + .NET Core
- Worked on side project **Sattvannam** for startup incubation

Founder / Entrepreneur

Creativo Interiors & Shriman Foods | Feb 2016 – Mar 2018

- Managed interior projects, procurement, and delivery
- Launched private-label spice brand; handled sales and exports

Assistant Manager – Marketing

Sahara India | May 2013 – Feb 2016

Executive – Business Development (Electrical Engineer)

Siemens Ltd | Jul 2008 – Jul 2010

Education

- Master of Management Studies (MMS), Welingkar Institute – Mumbai University, 2013 – 69.3%
- Bachelor of Engineering (Electrical), PVG's COET – Pune University (rank holder), 2008 – 71.33%
